What did you like most about this course and/or the instructor's teaching?

- It was succinct and to the point.

What about this course and/or the instructor's teaching needs change or improvement?

- Sometimes went too quickly describing proofs. I think slowing down a bit would help me better process material during lecture / understand the steps that build into the big ideas.

↳ I fairly often experienced "information overload" from lectures.

What did you like most about this course and/or the instructor's teaching?

-Textbook was well followed & explained, homework and tests were good at evaluating how much we have learned

What about this course and/or the instructor's teaching needs change or improvement?

If you miss one moment of in-class explanation, the next 15 minutes don't make sense, please pause for questions a little more often start the semester by saying "you should read the text before coming to class", And the tests felt like they weighted our writing speed over our knowledge.

Nothing

What about this course and/or the instructor's teaching needs change or improvement?

I don't like how your tests are full of extracredit. Just make the test out of 100, it makes it very difficult to study the material you think is most important.

What did you like most about this course and/or the instructor's teaching?

Professor McCarthy was very knowledgeable in the subject. I liked how assignments and exams tested your knowledge of the subject in different ways.

What about this course and/or the instructor's teaching needs change or improvement?

The content is very difficult. Somehow making it more approachable would help students. Also, the professor's handwriting was hard to read at times.

What did you like most about this course and/or the instructor's teaching?

Very confident in his teaching

What about this course and/or the instructor's teaching needs change or improvement?

All of his notes have no labels as to what we are doing/trying to show. They're numbered but unless you remember what page is what, then studying from the notes is ridiculous. Handouts might be leagues better.

What did you like most about this course and/or the instructor's teaching?

Jay really cares about students and helping students to learn. You don't see this often, so it was extraordinarily refreshing to have a professor that cares.

What about this course and/or the instructor's teaching needs change or improvement?

The grading policies for this course were very strange, and took a lot of time to understand. Simpler (and less harsh) grading would be snazzy.

Not much, truly
