Written comments about this course and your instructor are encouraged. Please be assured that these forms will not be returned to your instructor until after grades are submitted.

What did you like most about this course and/or the instructor's teaching?

I liked how wide ranging he made the ideas taught in the class. Often gave illuminating connections to current state of the technology that helped to explain quirks experienced while programming. Made the theoretical underpinnings clear.

What about this course and/or the instructor's teaching needs change or improvement?

Give him a grade, drop the papers, make the assignments due weekly, provide more scaffolding to the assignments, make this more of an intro to functional programming (using Racket) course. Assignments were too open-ended.

Additional comments:

One of my favorite teachers of my undergrad career otherwise.

What did you like most about this course and/or the instructor's teaching?

The most interesting and thought provoking class I've taken, when I understood the material.

What about this course and/or the instructor's teaching needs change or improvement?

I had a hard time understanding all the contents on ISWIM. Lecture capture may have helped, so I could re-watch earlier lectures.
