What did you like most about this course and/or the instructor's teaching?

He is excited, knowledgeable, and a good teacher. The assignments helped me learn and he was helpful in office hours. The organization is superb. Jay is hipper than many of his students.

What about this course and/or the instructor's teaching needs change or improvement?

The exams should not be randomized; if I had had the exam I saw some others got, I would have done worse.

Additional comments:

What did you like most about this course and/or the instructor's teaching?

Constant flow of information. Frankly I liked that we don't have to memorize all the details, but the overarching theories that the details, proofs, etc. represent.

What about this course and/or the instructor's teaching needs change or improvement?

Please zoom out more often. It's really easy to get lost in details of a proof and not recall even why such and such is even being proved.

The classes of review just before the exam class period were the most helpful since they were the most overview-like & zoomed out perspective on the content - which is exactly what was needed for exam-writing.

Additional comments:

Can tell you love the subject, keep up the awesome teaching!

What did you like most about this course and/or the instructor's teaching?

Jay had very good explanations and analogies for understanding course material. Essays and Exams were graded in record time.

What about this course and/or the instructor's teaching needs change or improvement?

The syllabus really needs its details ironed out, there are some vague elements like the essay prompt that require further explanation. I also think essays need more detail on why they were graded, the values seem like predefined constants.

What did you like most about this course and/or the instructor's teaching?

Jay showed a distinct interest in helping us learn. Class time was used effectively & enthusiasm for the material was evident.

What about this course and/or the instructor's teaching needs change or improvement?

A few more assignments to take the weight off any one assignment. Essay standards were unrealistic in my opinion.

Additional comments:

Look forward to taking another class w/ Jay.
