What did you like most about this course and/or the instructor's teaching?

Jay explains stuff well, especially when you ask for concrete examples or express misunderstanding

What about this course and/or the instructor's teaching needs change or improvement?

Sometimes I don't think I have adequate background to understand some of the more abstract stuff

Additional comments:

Jay is great. Pay him more money. But also provide other courses to adequately prepare students for his teaching style / abstraction level.

What did you like most about this course and/or the instructor's teaching?

Jay is truly invested in his students & is responsive to their concerns

What about this course and/or the instructor's teaching needs change or improvement?

Having 160+ assignments is stressful! Also, attending class to learn material way beyond the point my project was going to reach was disheartening

What did you like most about this course and/or the instructor's teaching?

Excellent explanations and willing to go over things as much as needed.  
 I love the micro task system, very nice having it all broken out like that.

What about this course and/or the instructor's teaching needs change or improvement?

If a student falls behind with the micro task system, its very easy for them to just keep ending up further behind until they just give up due to the pace of the class. Not sure what might help with this, but its something I've seen happen to many people this year.  
 Also in the section of notes per day, it'd be useful to have which tasks should be on by that day.

What did you like most about this course and/or the instructor's teaching?

Very freeform; all CS courses should be structured like this!

What about this course and/or the instructor's teaching needs change or improvement?

The project was very difficult, and the instructor did not lecture on the tasks that students were completing at the time, but instead talked about computer features he did not expect anyone to implement.
